

CURRICULUM

CURRICULUM CONNECTIONS

This section is for educators who want more specific information regarding the grade 6 and 7 science curriculum connections for each activity in the *Enviro-Files II* crate.

Grade 6: Table of Knowledge Outcomes

Activity	Unit	STS-Knowledge Outcomes
All Activities	Evidence and Investigation	<p>Recognize evidence of recent human activity, and recognize evidence of animal activity in a natural outdoor setting</p> <p>Recognize that evidence found at the scene of an activity may have unique characteristics that allow an investigator to make inferences about the participants and the nature of the activity, and give examples of how specific evidence may be used</p> <p>Investigate evidence and link it to a possible source</p>

Grade 7: Table of Knowledge Outcomes

Activity	Unit	STS-Knowledge Outcomes
All Activities	Interactions and Ecosystems	<p>Investigate and describe relationships between humans and their environments, and identify related issues and scientific questions</p> <p>Trace and interpret the flow of energy and materials within an ecosystem</p> <p>Describe the relationships among knowledge, decisions and actions in maintaining life-supporting environments</p>
